

WILBERT Turmkrane GmbH

Press release

18.01.2013

WILBERT boosts WT 650 e.tronic by 50%

Almost exactly 6 years after the initial launch of the WT 650 e.tronic with 32 to maximum load capacity WILBERT introduces a new version of this trolley job crane which is 50% stronger than the first one.

To be able to lift weights of up to 48 to, the crane got stronger jibs as well as a bigger, stronger trolley. The 48 to version can be operated in 4 and 6 fall operation, while the 32 to version (which is of course still available) works either in 2 falls or in 4 falls.

The acceptance test of the 48 to WT 650 e.tronic was already executed in December 2012 by the renowned company DEKRA.

About WILBERT Turmkrane

WILBERT Turmkrane GmbH is a German manufacturer for tower cranes. In co-operation with the partner company WILBERT Kranservice GmbH a complete service package consisting of sales, financing, rental, transport, assembly and disassembly is offered to the customers. Both companies belong to the WILBERT group that exists since more than 80 years.
